

MOULEX[®] AF 01

Anti-foaming agent

GENERAL

MOULEX[®] AF 01 is a very powerful anti-foaming agent. It is compatible and very suitable for water based glue and our range of release agent such as our **MOULEX[®] WE 05NF**.

PHYSICAL PROPERTIES

Appearance	: liquid
Colour	: white
Active content	: 50 +/- 4%
PH	: 9 +/- 2
Density	: 0.89 +/- 0,01
Viscosity 25°C	: 162 +/- 63
Shelf life	: 1 year if stored in closed container and protected against frost

RECOMMENDATION FOR APPLICATION

- 1. When foam appears in the sprayer:**
Add 0.2% compare to the release agent.
- 2. When foam appears into the glue:**
Add 0.1% on the total quantity of release and wetting agent.

In all cases, trials should be done to find the optimum dosage.
