

TECHNICAL DATA SHEET

PRESS PLATE CLEANER

PRODUCT SPECIFICATION

It is a water-based product for cleaning dust, resin, and chemical debris from press plates.

CHEMICAL SPECIFICATION

Physical Condition:	Liquid
Color:	Clear, colorless
Smell:	Slight
pH	1.0 - 4.0
Melting/Freezing:	< 0 C
Boiling Point:	> 100
Flash Point:	No Data
Evaporation Rate:	Less
Flammability:	Not flammable
Vapor Pressure:	No Data
Density:	1.00 – 1.05g/ml
Dissolution:	Totally soluble in water

USAGE AREAS

It is used as a cleaning agent for plate press surfaces in contact with laminated surfaces.

INSTRUCTION

Use directly or dilute slightly to clean plates.
